- 11 A favorable Ordinance Committee, BE IT ORDAINED THAT the Code of the City of Chicopee for the year 1991, as amended, be and is hereby further amended as follows:

Insert Chapter 260-32 as follows:

Chapter 260-32 Municipal Parking areas:

See exhibit A attached hereto and incorporated herein for a full description.

--Motion made by Councilor Tillotson to receive, 2nd and final reading, enrolled and ordained as amended. Councilor Tillotson stated changed the parking lot a little bit. Added space for Councilors, one spot adjacent to city hall for now, will move to canal space after, don't stay there too long. Map implements what's being adopted, difficult for public too. Best we could come up with. Can't please everybody. Councilor Laflamme stated Springfield Street is staff parking, work out possibly putting a camera there, not safe there. Some people park in places they aren't supposed to. Placards for employees, could be more changes. Fines, written warning and fines. Important to follow this. Lee did a great job, glad ordinance worked with him. Councilor Walczak stated any feedback from employees. Couple women have expressed concerns, end of the workday, some security would be nice. Went to the car at lunch, moved, wouldn't park there after lunch. Councilor McAuliffe stated the spaces are outlined for public. Asked how many people go to city hall? Mostly employees, not thrilled about the outline, put faith in Lee if there are issues come back to ordinance, this is not a perfect situation. Don't want to push narrative that it's not safe downtown, change is difficult. Councilor Balakier stated some questions have been answered, safety? Distance? Reach out to police, more presence at the beginning and the end of the day. Councilor Roy asked what about a parking garage? Police or his designee can monitor all these cars. Councilor Tillotson stated he waited till the end, will request police presence at the beginning and the end of the day. Not everyone is happy with this, not everyone will use these spots. Can park anywhere that is a legal spot. What to do if someone is illegally in the spot? Have some handicap spaces as close as possible, still across the street. Police or designee can monitor these spots. Walk around, make sure the cars have tags. That's where were at. Make the best of it, hopefully get the elevator back by October/November. Councilor Walczak stated just a suggestion, look at the public parking at VOC-how many cars park there during the day? Find four spots in public parking. Councilor Zygarowski stated expect a year or two. Till next summer, lot 24 is just across the street. Lots, after DPW to look at the trees and lighting in the lots. Make it safer and more appealing. Councilor Courchsne stated last year he approached the Mayor to add a parking enforcement officer, for nuisance calls. This will not get enforced. Councilor McAuliffe stated he agrees with a lot that has been said, want public to have access. Very little reason for people to visit city hall in 2019. Most people pull up and drop in collectors box. Public

employee can park in a public spot. Over adding public spots, need for changes. Councilor Laflamme wish some people came to the meeting to listen to Lee. Restrictions on public lot, there are federal grant monies used on the lots. Some areas have to be for the public. Downtown is safe. Cameras add to the safe feeling, extra step. Councilor Vieau mentioned escort services, when people walk alone, they don't feel comfortable. Some type of escort service is not uncommon to make sure people feel safe. Councilor Zygarowski stated once this new dispatch is in place, will free up eight officers. Bring back the walking beats downtown. A lot of things that go on wouldn't go on. Councilor Walczak stated if I'm coming across the bridge, I will ignore the lot with the 24 spots. Want to park as close to city hall as possible.
